

Luggage Storage for Boarding Pupils

Girls are required to pack up their bedrooms every holiday. This allows for bedroom changes at the start of the following term where needed and for the rooms to be thoroughly cleaned. In some holidays rooms are also let.

At the end of each term, girls pack up all their items. Parents can choose from storage companies, e.g. School Trunk or Love Space, both of which have been trialled by the school and offer competitive pricing and high quality service. Girls may also choose to send their items to store with a guardian or bring all items home in the holidays. Whichever option girls choose, boarding house staff support them in organising their arrangements.

When an option has been chosen, house staff help girls during the process. If using a storage company, it is usual for storage materials to arrive 2-3 weeks before the end of term, boxes to be collected from a central point in the boarding house by external storage companies up to 2 days before the end of term, and boxes to be returned to a central point in the boarding house on the day that girls return from their holidays.
